Sample Goals

I will take on leadership responsibilities to create new collaborations and opportunities that benefit the Mariemont learning community. **Anticipated Activity: Apply for Master Teacher Status**

To further increase my content area knowledge in order to enhance my professional methods - higher order and critical thinking skills, addressing student needs and learning styles.

To maintain instructional excellence and effectiveness by keeping in touch with the latest trends in education, thus improving students' skills in all content areas.

To enhance my knowledge of curriculum implementation, state and federal regulations, classroom management, and student motivation.

To further develop my content knowledge within my subject area and profession.

To enhance my leadership skills in the classroom and in my profession.

To develop my knowledge and expertise in dealing with both gifted and special education students, as well as children of all learning levels.

To further my understanding of the uses of technology in a classroom so as to benefit not only the students in my classroom but also to serve as a resource to the district.

To develop a better understanding of technology and how to integrate technology into the classroom.

To enhance my technology skills to improve instruction and develop higher level thinking skills.

To participate in activities that support and implement the stated goals of the Mariemont City School District.

I will increase my knowledge of "best practices" in order to provide a developmentally appropriate classroom environment.

Rejected Goals

- To further develop my skills as a teacher.
- To attend workshops and conferences.
