

March 25 Facilities Community Dialogue II Evaluation of Meeting – Additional Comments

What went well with tonight's session?

Good small group/table discussions (26)
Enjoyed hearing everyone's ideas and opinions (9)
Keeping to promised time (5)
Well organized (6)
Great moderator (6)
Clear information/presentation/materials (11)
Thank you (5)
Feel valued/good involvement (2)
Clearly laid out and explained (3)
Liked roaming BOE and Admin (2)

Well informed about process in facility planning – now have better understanding of the plan & process; Brainstorming new ideas and what's important; Session extremely well thought out. The planning that went into it was clearly evident; Emails, letter, etc...very much appreciated!; It was great – want to discuss the financial plan in round talk just like tonight; We had such a diverse group – all different schools, some with no children & some with kids still in preschool; Very satisfied; Great way to strip emotion from topic. Tough session – well done; Feedback sheets; So glad I came – it took the “emotion & buzz” out of it for me – I feel informed

Anything we could have done better with tonight's session?

More time to discuss (12)
No – good/great job (20)
More costs details (2)
Hear opinions from other tables (3)
Complexity of issues demand more time (2)

More background explanation of the drivers behind the options laid out would have helped; More detail; Need sketches of buildings and associated costs; Would like mill data in writing; Very difficult to “vote” on alternatives – will send in later; Provide more than 4 solution options; Picky comment – know gym was needed for space, but a little hard to hear with the echo; Explain the tax increase difference between the different plans; Could have used more background – am new to area; Mostly everything went well- although the 4 main options presented still need some tweaking; More meetings like tonight
