

MARIEMONT CITY SCHOOLS
Facilities Planning
Solution Options - Decision Drivers

The community residents on the District Facilities Advisory Panel developed this list of suggested key planning criteria as a helpful tool in this process. Please express your opinions on the importance of the categories listed. Feel free to add your own decision drivers as well.

Academic Excellence – *how our facilities aid & enable academic achievement*

- Conducive learning environment (appropriate lighting & temperature, teacher voice amplification, reduced noise level)
- Technology (computer and Smart Boards in classrooms, all building wireless access)
- Dedicated space (labs, instructional storage, "specials/electives", recreation (recess, sports), fine arts)
- Flexible, adaptable class space for large and small group learning (academic, extra- curriculars)

Comments:

Cost – *disciplined fiscal responsibility*

- Balancing short and long term costs
- Analysis includes initial building expenses
- Analysis includes operational costs: utilities, staffing, transportation expenses impacted by each option

Comments:

Community Values – *embracing aspects of our community values*

- Community schools
- Architecturally historic context
- Before and after school care
- Landscaping

Comments:

Safety – *personal & physical safety: includes preventing harm, maintaining healthy environment*

- Security–intruder protection/emergency preparedness*, enable first responders/way finding
- Environment/health–air quality, fire/CO2 detection
- Bus/parent pick up and drop off
- Student personal space (wider lockers to keep personal belongings safe)

Comments:

Future – *planning that enables adaptability to future trends & is a sustainable/long term facility plan*

- Future technology and learning trends (ie virtual learning classes & field trips)
- Sustainability (long term view): anticipate & design considering enrollment extremes
- Lifetime learning/adult education

Comments:

Footnotes:

- ADA standards will be met in all buildings; All buildings will meet Silver LEED certification requirements
- *Includes doors, locks, alarms, PA system, back up generator/s
