WARRIORS BEYOND

Warriors BEyond is an award-winning experiential learning program at Mariemont City Schools. The program is designed to inspire and challenge students from kindergarten to 12th grade. Every spring, high school students participate in a 3-day Intersession and can choose one of three engaging options: take teacher-led courses, engage in hands-on career exploration, or visit colleges across the U.S.

As part of the Warriors BEyond experience, students may apply to enroll in MasterClass. If approved, this program allows students to craft a custom curriculum around a subject of personal significance that is not currently offered at Mariemont. Students engage in self-directed learning, guided by a mentor teacher during a dedicated class period, and must maintain a project portfolio and present their research throughout the semester.

Outside the classroom, students have the opportunity to broaden their horizons by participating in academic or service-oriented international trips guided by the committed and adventurous faculty.
