Warriors BEyond

Warriors BEyond is an award-winning experiential learning program at Mariemont City Schools. The program is designed to inspire and challenge students from kindergarten to 12th grade. Every spring, high school students participate in a 3-day intersession and can choose one of three engaging options: take teacher-led courses, engage in hands-on career exploration, or go on college visits across the U.S.

As part of the Warriors BEyond experience, students can also enroll in a Master Class where they can create a personalized curriculum and earn elective credit to align their education with their passions. Outside the classroom, students have the opportunity to broaden their horizons by participating in academic or service-oriented international trips guided by the committed and adventurous faculty.
